To Moss Brothers

We are now some 18 months living in our new home that you so carefully helped us to design and see through all of the various stages of building to completion. As you said at the start we are building you a lifelong home and can say we were extremely pleased with the outcome. We would not have achieved this without your professionalism and dedication to delivering a quality product.

For us this started from our very first discussions together and the deliberate step by step process you took us through to understand our key design needs which was then translated into our dream home. The selection of quality builders and contractors ensured we got the home of a lifetime and that is has subsequently been awarded a Master Builders Gold award demonstrates the standards you set and why we chose Moss Brothers, we would gladly recommend you to any prospective customers looking to build their next home.

Kind regards, Craig & Jacqui Sims
